The return an investor receives on a product is determined by market developments. Market developments in the future are uncertain and cannot be predicted accurately

Recommended investment period:

at least 3 years

Example investment:

EUR 10.000

The presented figures include all costs related to the product, but do not necessarily include all costs paid by you to an advisor or distributor. The figures do not take into account your personal tax situation, which may also affect the returns you receive.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 1/2022-1/2023.

The moderate scenario occurred for an investment between 6/2014-5/2017.
